

Lighthouse Federal, LLC

Capability Statement

d/b/a Lighthouse Security Consultants

Core Competencies

Lighthouse Federal, LLC provides intelligence research and analysis support, investigative support, and training and program support to federal, state, and local government agencies. Our leadership brings 20 years of law enforcement, national security, and protective-intelligence experience, including federal-level threat-assessment work.

Intelligence Research & Analysis

- Open-source (OSINT) and criminal-intelligence research, link and pattern analysis
- Threat and risk assessment support; intelligence reports and briefings written for the end user

Investigative Support

- Public-records and database research; subject, source, and records verification
- Personnel-security and background investigation support; written reports of investigation

Training & Program Support

- Curriculum, lesson plan, and assessment development; SOPs and policy; executive briefing materials

Differentiators

- Every finding is traced to a documented source and verified by a trained analyst before delivery.
- Led by a professional with federal protective-intelligence experience and FLETC, DHS, and U.S. Marshals training.
- Small-business responsiveness with direct access to senior leadership.
- Private-sector clients commend our staff's reliability and our practical security assessments.

Past Performance (private sector, under d/b/a Lighthouse Security Consultants)

Multinational corporation, U.S. headquarters. — \$120,000 annually, 2018–2019

Security reception and access-control support at the HQ entrance, and executive protection for company executives. Fully reliable staffing with no call-outs for the engagement.

Reference available on request.

Public charter school, Washington, DC. — \$30,000 annually, 2023–2025

After-hours surveillance camera monitoring and ongoing security consultation supporting school leadership's safety decisions.

Reference available on request.
